Dear Hiring Manager,

I hope this message finds you well.

I am writing to express my interest in the **Software Developer - AIDP** position at **CSTEP**. I am currently pursuing a **Master of Technology in Artificial Intelligence** at **Maulana Azad National Institute of Technology, Bhopal**, and have hands-on experience in developing AI-powered systems, full-stack web applications, and cloud-based solutions.

In my internship at **Wabtec Corporation**, I worked on scalable backend systems using **FastAPI**, **Docker**, and **AWS**. Additionally, I have led multiple AI-driven projects, including an **AI Customer Support Agent** using **LangChain + LangGraph**, an **NL2SQL Chatbot**, and a **Semantic Search Engine** leveraging **FAISS** and **Sentence Transformers**. These experiences have strengthened my ability to design, build, and deploy intelligent systems that solve complex real-world problems efficiently.

I have attached my resume for your review. I would be grateful for the opportunity to contribute my skills and enthusiasm to the AIDP team at CSTEP.

Thank you for considering my application. I look forward to the opportunity to discuss how I can be of value to your organization.

Warm regards,
Amit Kumar
